

Connecting your Mac to the UHSecure Wireless Network

1. Open **System Preferences**.

2. Click **Network**.

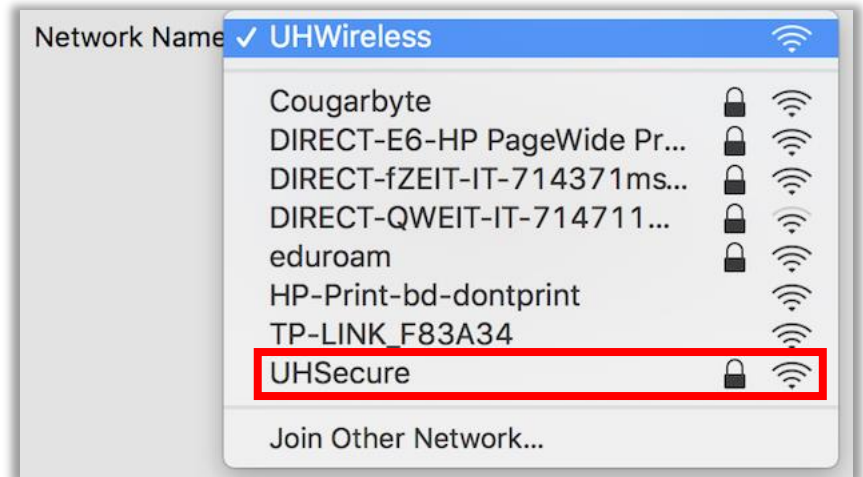

3. Make sure the Wi-Fi status says Connected. To turn the Wi-Fi settings on click **Turn Wi-Fi On**.

Status: **Off**

Turn Wi-Fi On

4. In the Network Name drop down list select **UHSecure**.

5. Enter the following:
 - Username: your **Cougarnet** ID
 - Password: your **Cougarnet** password
6. Click **Join**.

The Wi-Fi network "UHSecure" requires WPA2 enterprise credentials.

Username: jcougar
