

The steps you took to add your phone number into the Two-Factor Authentication system the first time are the same ones you need to do again. See the steps below for more details on how to do that:

1. Sign into an **application** that is using the Two-Factor Authentication system (example: Office365, AccessUH, myUH PeopleSoft, etc.).
2. Click the **Start setup** button.

3. Select **Mobile phone** as the type of device you are adding and click **Continue**.

4. Enter your phone number, click the checkbox to confirm that your entered number is correct, then click **Continue**.

6. Click **I have Duo mobile installed**.

7. Open the Duo mobile app on your mobile phone, tap the + button to add your CougarNet account, and scan the QR code.

8. On your computer, click **Continue to Login**, and select **Send Me a Push**.

9. On your mobile device, tap the push notification and, once it opens in the Duo mobile app, confirm its origin and tap **Accept** to authorize the login.

Note: Once the steps above are complete, you are all set! From now on, you will be prompted to initiate Two-Factor Authentication via Duo each time you log in to any University of Houston's system applications.
